ICTUS: “CONOSCERLO PER COMBATTERLO”

The central graphic features a large illustration of a human head in profile, showing the brain and its vascular system. To the left, there are several smaller diagrams: one showing a cross-section of a blood vessel with a clot, another showing a brain with a stroke area, and a third showing a brain with a stroke area and a blood vessel. To the right, there are logos for A.L.I.Co. Zaira C.F.R., Associazione per la Lotta all'Ictus Cerebrale, A.I.S.A.S., FARMACOS, and A.G.F.A.R. Below the main illustration, there are two small diagrams: one labeled 'Ischemic stroke' showing a clot blocking blood flow, and another labeled 'Hemorrhagic stroke' showing bleeding inside or around brain tissue.
